Green Dimensions

مؤسسة الأبعاد الخضراء
GREEN DIMENSIONS EST.
Who Are We

Green Dimensions is a full service landscape company based in Amman, Jordan. The business has evolved from a family owned plant nursery to a full service design-build and maintenance landscape company. Offering services from concept design to complete installation, we take on a range of projects, from small-scale residential gardens, to streetscapes, to larger site developments. All of our projects are handled with superior customer service, thoughtful design, and meticulous implementation methods.

While we are dedicated to making an aesthetic difference, we pride ourselves in being environmentally responsible and continuously strive to create a positive impact on the natural environment. We make a conscious effort to design arid landscapes that employ native species and other xeriscaping cultures.

We are committed to provide our quality services as we continue to operate as a sustainable business. Green Dimensions employs a diverse team of skilled practitioners, knowledgeable experts and certified professionals to cover our field's entire scope. Our core values define who we are, what we do, and how we do it; Integrity, Excellence, Collaboration, Aspiration, and Delivery.

Mission & Vision

MISSION: To create aesthetically unique, environmentally conscious landscapes of utmost quality, which are suited for every client’s needs. We continuously strive to exceed our client’s expectations and guarantee their full satisfaction.

VISION: To be the most recognized, trusted and innovative landscaping service provider in the region.

Accomplished Projects

We are proud to have been part of these projects:

- Ayla Island Apartments - Landscape implementation and maintenance
- Ayla Streetscapes - Landscape implementation and maintenance of the 23Km of roadway with approximately 10,000 trees.
- Ayla Golf Course - Landscape implementation
- Ayla Beach Club.
- Marsa Zayed Mosque.
- Private residential properties in the country.
Landscape Design and Consultation

Our qualified team of designers will help translate your vision into a reality. Whether you intend to design your dream landscape project from scratch, or want to rejuvenate an existing one, Green Dimensions is always happy to assist. We pay close attention to our client’s ideas, we consider their budget, and in turn respond with a design that is most tailored to meet their needs and expectations.

We are proud to have a design team and technical team who are continuously working in parallel to ensure that we not only deliver quality, but also functionality that is in harmony with the surrounding environment.
Our qualified maintenance professionals are committed to keeping your property looking lush, green, and nourished with quality landscape services serving different locations across Jordan. Our combined expertise in plant material, different types of soil, irrigation methods, and extreme weather conditions aid us with providing customized programs that suit the various needs of each project. Regularly scheduled site visits allow our care team to closely monitor site conditions and adjust treatments accordingly. We are proud to offer a comprehensive range of maintenance services:

- Lawn Care
- Tree and Plant Healthcare
- Seasonal Edge and Mulching
- Soil Treatment and Testing
- Soil Grading
- Trimming and Pruning
- Staking
- Fertilizing
- Spraying (Pest and disease control)
- Debris Removal
- Professional Mowing
- Seasonal Flower Installation
- Weeding and Perennial Care
- Potted Plants
- Aeration and Seeding
- Irrigation Systems [audit irrigation systems to reduce water consumption]

Whether your interest lies in maintaining a landscape area, renovating bits and pieces, or to undertake a complete site makeover, Green Dimensions is the landscape company to call!

We guarantee your satisfaction.
We understand that no landscape is built exactly the same. A properly/smartly-watered site is key to the longevity and success of the landscape. Our trained irrigation team will design and install a custom layout, suited to the watering needs of your unique landscape. Green Dimensions extends its services beyond the design and installation process as it also offers post installation monitoring and maintenance. With an automated system installed throughout your site, a pre-programmed controller manages the watering needs of your entire property. Irrigation service range from:

- Installation of new irrigation systems
- Add-ons and modifications to existing systems
- Maintenance of Green Dimensions installed systems

An automated irrigation system is beneficial for all the many reasons:

- Prevents Disease and Weeds
- Conserves Water
- Saves Time
- Preserves Soil Structure and Nutrients
- Optimizes the growth rate of the plant
Landscape Installation

We pride ourselves on our reliable and efficient landscaping services. While the installation phase is always an exciting time for our team, our clients enjoy watching their visions become a reality.

Green Dimension carries meticulous execution methods that meet the designed plan. We like ensuring that our client is satisfied holistically through this phase. We try to keep our disruptions to a minimum, and never leave any debris behind.

Our installation process typically consists/covers:

- Soil preparation
- Bed planting (turf, plants, trees, transplants)
- Wood Construction
- Stone, Rock, Pavers and Bricks
- Mulching
- Outdoor Lighting
Golf Course Planning and Construction

We have specialized in Golf Course planning and construction.

The process includes:
inspecting the site in hand, evaluating the site, and then assessing the handling cost and plan of action.

Our Golf Course services include:

- Installing and re-shaping new courses
- Renovating and Replacing previous courses
- Irrigating and drainage plan and installation
- Most importantly, maintenance of the course

Golf courses aren’t our only Sport-Scape specialty; we also handle the planning and construction of green-dependent areas such as Soccer pitches. Proper site preparation is an important responsibility that begins with a high-quality turf grass product. Our accurate site preparation and implementation allows us to achieve utmost levels of success in all aspects of the establishment.
Plant Nursery

Our plant nurseries are one of the largest in Jordan, holding a variety of well-nurtured plants (trees, shrubs, flowers, etc.) We focus on maintaining high quality produce by considering our climatic suitability. We grow a variety of plants that can serve different purposes in a landscape. You name it, we'll supply it: colorful perennials, annuals, ornamental trees, shrubs, and evergreens.

Take a look through our gallery to enjoy our range of different plant species.
When you need a hand, we’re here to help! We’ve been operating our own farms for years in the Jordan Valley. We continuously strive for fresh organic produce. Our years of experience lend us the ability to provide clients with knowledgeable agricultural consultations.

We offer a range of agricultural services to help identify appropriate solutions for your agricultural land and in turn maximize your crop output and quality:

- Soil Evaluation
- Crop Evaluation
- Fertilizer recommendations
- Seeding and Aeration
- Irrigation Methods
